

SECURE YOUR PRODUCTION

Upgrade your Norden machines with the latest control system

a coesia company

SECURE YOUR PRODUCTION

Book your control system upgrade during 2019 and get the **OPC-connection and Energy Save-feature** included with your control system upgrade. Contact your customer service representative to learn more. Installation according to agreement.

The latest control system features a 10" color touch screen HMI.

Example: Hardware and HMI from a previous generation of Norden machines.

Upgrade your Norden machine with the latest control system

- **Secure your production and extend the lifetime of your older 700-series machines**
- **10" panel**
- **Reduced change over time with pre-set formats**
- **Simple diagnostics** (trouble shooting)
- **Production statistics; real-time on screen statistics**
- **Production statistics; batch reports**
- **Possibility to install new functions** e.g. code reading, laser printing, tube print registration
- **No dependence on old electrical parts**
